

Local & Regional Regulations

Point of Sale Program

Golden Valley

Effective January 1, 2007 the city instituted an inflow and infiltration (I/I) inspection program at the point of sale. A sanitary sewer inspection is required before any property is advertised for sale. A Certificate of I/I Compliance is necessary before selling or transferring title of property. If a property does not pass the inspection a correction notice will be issued.

The fee for the initial inspection, which includes a televised observatin of the sanitary sewer system is \$200 for residential properties. Fees for subsequent inspections of a sump pump discharge are \$75. Fees are due at the time of applicaton for inspection.
