

Local & Regional Regulations

Sign Ordinance/Septic Regulations

North Saint Paul

Real estate signs not to exceed 6 square feet are permitted, one per street frontage on a property. Temporary directional signs, not to exceed 3 square feet in size, 3 feet in height, and 4 in number, are permitted on the approach route to the open house. Must be placed in back of the property line (not in the boulevards) and removed the same day.

Septic System Regulations

There are very few septic systems left in the city, but those that are there are regulated by Rule 7080. There are no requirements for inspection at the time of sale on these systems.
